## **TRISTAR EXPANDS ITS POPULAR VIPER G2 LINE WITH THE NEW SR SPORT YOUTH MODEL**

The TriStar Arms Viper G2 semi-automatic shotgun model has been such a popular gun through the years that TriStar has added a 20-gauge youth model in the new SR Sport Series for 2015.

The 20 ga. Viper G2 SR Sport Youth model weighs 6.2lbs, and comes in a 26-inch barrel with a red fiber optic sight. It also features a red anodized receiver and end cap, along with an enlarged bolt handle. The shotgun has a synthetic stock and forearm coated with a “SoftTouch®” application to give the shooter a more comfortable shooting experience.

“Whether you’re out in the field hunting or at the range practicing or shooting sporting clays, it’s important to make sure the gun fits, so that you have a memorable and enjoyable experience,” said Ryan Bader, vice president of TriStar Arms. “There are a lot of school and youth shooting leagues across the U.S., and the new Viper G2 SR Sport Youth model would be the perfect gun to get started with.”

The SR Sport Youth model also comes with a target rib and three Extended Beretta® Mobile Chokes.

### **Viper G2 SR Sport Youth Model Features:**

- Manual E-Z load magazine cut-off
- Vent target rib with matted sight plane
- Enlarged bolt handle
- Fiber optic site
- 5-round magazine (shot plug included)
- Chrome-lined chamber and barrel
- Swivel studs
- Three extended Beretta® Mobile style choke tubes (IC, M, F)

The Viper G2 SR Sport is chambered for 3-inch 20-gauge shells and will shoot 2¾-inch and 3-inch interchangeably, allowing for both light target loads and heavy upland field loads.

Each new model goes through an endurance test to assure the customer is getting a dependable gun at a reasonable price.

MSRP for the Viper G2 SR Sport Youth model is \$549.00.

TriStar is a primary importer of quality shotguns and handguns, and offers a great selection of firearms for hunters and recreational shooters.
