## TRISTAR ADDS THE COBRA MARINE TO ITS TACTICAL LINE OF SHOTGUNS

For years, TriStar Arms has offered an extensive tactical and home defense line of shotguns. In 2014, TriStar has added the Cobra Marine Tactical Pump shotgun with an 18.5-inch barrel. The Cobra Marine will feature a brushed nickel finish with a synthetic stock and forearm.

The entire Cobra Tactical shotgun line will now feature an 18.5” barrel and a mounted picatinny rail under the forearm. TriStar has kept its return spring feature in the Cobra Tactical firearms. Simply pull back on the forearm and release, the spring will return the forearm forward, which will close the chamber. This method makes for rapid firing in a pump shotgun.

**Cobra Marine Tactical Pump Features:**

- Brushed nickel finish
- Spring-loaded forearm for fast cycling
- Picatinny rail on forearm
- Blade front sight
- 5-round magazine (shot plug included)
- Chrome-lined chamber and barrel
- Swivel studs
- One Beretta® style choke tube (Cyl)

The Cobra Tactical Pump will have a 3-inch chamber to take 2 ¾-inch or 3-inch shells and will allow shooters to shoot a variety of loads ranging from light target loads to heavy buckshot.

Finish	Gauge	Length	Weight	MSRP
Synthetic	12	18.5"	6.2 lbs	\$319.00
Syn Marine	12	18.5"	6.2 lbs	\$369.00
Fixed Pistol	12	18.5"	6.5 lbs	\$399.00

“Our line of Cobra shotguns are both affordable and dependable, whether you’re in the field

hunting, at the range or protecting your home,” said Gus Bader, president of TriStar Arms. “With the increasing popularity and customer demand, we are extending this line to provide more features for both existing shooters and new shooters alike.”

Located in Kansas City, Missouri, TriStar Arms is a primary importer of quality Turkish shotguns and handguns. The company is driven by the same mission that it set out on since its inception – to provide high-performance firearms for hunters, recreational shooters and home defense at a fraction of the price and to deliver fast and friendly service at all times. Every firearm that TriStar Arms imports is rigorously tested throughout each stage of production to ensure that its customers receive value that can be passed down for generations.
