RAPTOR II COMPACT CAMO

20ga - 24" barrel

General Description: The Raptor II Semi-Automatic shotgun from TriStar Arms is where function and reliability meet beauty and affordability. Boasting a new aged and totally redesigned stock and forearm, the Raptor II is sleek and comfortable to shoot. Upgrades include a redesigned stock and forearm, oversized operating handle and bolt release, softer recoil pad and a fiber optic sight. Rigorously tested, the Raptor II offers the total package at an affordable price. The Raptor II by TriStar resets expectations and delivers performance.

Features:

- Redesigned Stock and Forearm
- Oversized Operating Handle & Bolt Release
- Fiber Optic Front Sight
- 5 Round Magazine – Shot Plug Included
- Chrome Lined Chamber & Barrel
- Beretta®/Benelli® Mobil Style Choke Tubes

Action: Gas operated semi-automatic. Bolt remains open after last round is fired. If magazine and chamber are both loaded, opening action will result in ejecting shell from chamber but will not cycling new shell from magazine into the chamber. Magazine cut-off is located near trigger guard and must be pushed to eject shell from magazine. This allows shooter to clear chamber but keep magazine loaded.

Safety: The primary safety is located on the backside of the trigger guard. When engaged, the safety is designed to block the trigger, hammer lever and the hammer which makes the firing mechanism immobile.

Magazine: Tubular magazine, bottom loading. Shot plug included and comes installed. Shot plug easily removable by unscrewing the magazine cap. Simple pull plug out and replace magazine cap.

Item No.: 20246
